Certificate in Early Intervention (NEW!)

Apply before 4 Jun 2010

Key NCSS touch-points to serve you better

With a renewed focus on our enabling role to support the VWOs even better since relinquishing our Sector Administrator role, NCSS has streamlined internal work functions to reap greater synergies. Service Management Division (SMD) and Membership Services Department have worked very closely in building and managing information and knowledge on our member Voluntary Welfare Organisations (VWOs) over the recent years. To optimise our resources and strengthen our partnership with member VWOs, the Membership Services Department has been transferred to SMD.

SMD will be renamed Membership and Service Management Division. The division leads in the management of services in the Children, Youth and Family, Disability and Eldercare sectors, as well as, member relations with VWOs. Through a two-pronged approach of engaging and enabling, it will front all general communications with NCSS member VWOs, and support them in their growth and development. In addition, the division will develop and implement shared services and benefits for VWOs, including their staff and volunteer leaders. The current Service Management departments will continue to remain in the Division.

Member Relations Department will be responsible for membership services and privileges including membership applications, Institutions of a Public Character (IPC) related support, and member relations.

VWO Services Department will be responsible for developing and promoting shared services, processing fund-raising permits and balloting for Flag Days. The Department would also facilitate nominations for the President's Social Service Awards, National Day Awards and Long Service Awards.

Member Relations Department and VWO Services Department can be contacted at 6210 2462/4, 6468 3305 (fax) or ncss_membership@ncss.gov.sg
